Art Unit: 2155

The following is an examiner's statement of reasons for allowance: The claims are allowable over the references of record in that none of the references of record teaches increasing the effective data storage rate of a target storage device having a storage rate slower than the data transmission rate by compressing each of the data blocks with a plurality of encoders, determining a compression ratio for each of the encoders, selecting for output an encoded data block from the compressed set having the highest compression ratio and appending a corresponding descriptor, if at least one of the compression ratios exceeds a priori specified compression threshold.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
